

15" Digital Photo Frame

Product Code: SHDPF15V2

The Shintaro 15" Digital Photo Frame allows you to display a constant stream of photos and video. You no longer need a PC to view your digital media; simply insert your USB Pocket Disk, SD/MMC card, MemoryStick or Compact Flash card and begin enjoying your digital memories right away. The 1GB internal memory allows you to upload your most cherished memories directly to the photo frame. Ideal if you only have one memory card and still wish to have a permanent slideshow of photos. The Shintaro 15" Digital Photo Frame features added MPEG video playback for easy viewing of videos, making this an excellent all-round media viewer for Business or Home.
